

# TUBE

Design by Randers+Radius

TUBE is among the best in the world. A completely individual functional table with a level of quality, which exceeds expectations. TUBE is available in two versions - TUBE Fold, which is a folding table, and TUBE Stay, which is a fixed table. The folding table is also available as a counter height table. Both TUBE Fold and Stay are built around an aluminum beam. This is the core of the table, and it contains the completely newly developed folding mechanism. TUBE Fold can be managed by just one person, as the folding function and associated stacking trolley is very easy to operate.

TUBE is the table that solves many different interior design tasks and fits in everywhere.

- Available in 2 versions: Fold and Stay
- Simple operation using a release button (Fold)
- Contemporary and elegant design
- 7 cm stacking height (Fold)
- Quality, which exceeds expectations
- Chair suspension possible
- Tested in accordance with EN15372
- Solves many different interior design tasks
- Top thickness: 20 mm
- Height: 73 cm
